THE TREASURY TO THE COLONIAL OFFICE. Treasury Chambers, 29th November, 1887. Sir,-I am directed by the Lords Commissioners of Her Majesty's Treasury to acquaint you for the information of the

Secretary of State, that they have considered the correspondence on the currency of the Straits Settlements enclosed in Mr. Meade's letter of 15th August. There is good reason to be gratified at the soundness of the opinions expressed by the highest

authorities in the Settlement, and My Lords cannot but hope that those opinions will ultimately be adopted, although the interest of the existing Bank, which doubtless render great service to the mercantile community, prevails among the non-official members of the Legislative Council. They wish especially to record their satisfaction at reading the excellent memorandum of the Colonial Secretary. My Lords think that Sir H. Holand is pro-

ably right in not further orging a reconsideration of the subject at the present moment. The community has been warned of the risk to which to it is exposed by a currency system acting solely for the interest of the issing Banks. A change to a sounder system can only be made with the concurrence of the community, and that concurrence has not as yet be obtained. It is, however, desirable that no measures

should be sanctioned extending the present powers of the Banks, and although it is not probable that encouragement would be given by the present Governor or Colonial Secretary or Executive Council to any proposals of that nature, My Lords would nevertheless recommond that the Secretary of State should put on record an opinion to that effect, and they would further hope that although the present may be a fitting moment for further urging the views which the Becretary of State and this Board hold in common, the subject may not be forgotten, should opportunity offer. My Lords entirely concur in the terms of the letter which the Secretary of State proposes to address to the Gavernor, and there are no modifications or additions which they would suggest except it be an expression of opinion such as they have mentioned in a preseding paragraph, that, pending a satisfactory adjust-
